

## Aušra Sports Questionnaire

The Aušra Sports Club encourages participation in the Lithuanian community through various sports activities. With an intention to expand our contribution, we seek to diversify our activities to appeal to a broader base within our community.

This questionnaire is designed to determine community interest in additional sports activities. Please fill out a separate questionnaire for each individual. The completed questionnaire can be returned to the Aušra mail box located in the Church Office. The information collected will only be used for contact purposes if there is enough interest.

You can also return this completed questionnaire to your Aušra coach.
